

### Product description

DM Ferro PP Film 240 $\mu$  is an inkjet printable polypropylene film with a ferrous anti-rust back coating that adheres to magnetic surfaces. This flexible polypropylene film is the perfect and economical solution for changing a retail environment overnight. The ferro and magnetic films can be stored and re-used time after time.

### Print compatibility

-  Aqueous inks
-  Latex inks
-  UV-cure inks
-  Screenprint

### Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:  
Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

### Physical characteristics

Surface: Matte

Print side: White polypropylene  
Reverse side: Ferrous black coating

Thickness: 240  $\mu$   
Weight: 325 g/m<sup>2</sup>

### Features

Flexible polypropylene base  
Adheres to magnetic surfaces  
PVC-free  
Anti-rust  
Easy to install and remove  
Reduces the life-cycle cost for signage

### Applications

Retail advertising  
Trade show graphics  
Interior decoration  
Wall graphics
