

Product description

DM Ferro Base Film White 500 μ is a permanent self-adhesive film with a white surface used to make a non-ferrous wall suitable for easy-to-replace magnetic graphics. It can be applied to flat, curved and cylindrical surfaces. Use this white surface base film for areas where the wall is not always covered with graphics or print it with UV-cure inks.

Print compatibility

 UV-cure inks

 Screenprint

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:
Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

Physical characteristics

Surface: White matte
Base material: Flexible ferrous base
Adhesive: Permanent

Thickness: 500 μ
Weight: 1880 g/m²

Holding strength: 100-105 g/m²
Guaranteed holding strength: \geq 100 g/m²

Features

Highly flexible base to create ferrous surfaces
Permanent self-adhesive layer
White surfaces
Printable with UV-cure inks
Easy to install
Indoor and static outdoor use

Applications

Retail advertising
Trade show graphics
Interior decoration
Wall graphics
